

For the Fiscal year Ended March 31
(April 1, 2024 to March 31, 2025)

Financial Results

April 25, 2025

AISIN CORPORATION

Overview of FYE2025 Financial Results

Results

Revenue decreased compared to the previous fiscal year, due to the decrease in sales volume of powertrain units.

Operating profit increased compared to the previous fiscal year when quality-related cost was recorded, despite the decrease in revenue and the increase of investments for human capital and the future, there were the effects of changes in exchange rates and the effects of the results of corporate structure improvement and structural reforms.

Forecast

Although the revenue will remain at the same level, the company will accelerate the strengthening of electrified products, product competitiveness and group management, and expand investments in human capital/the future to drive growth.

For tariff impact, the company incorporated certain amount of risk at delay in the timing of price pass-through, and expects operating profit to be 205 billion yen.

Return to Shareholders

The annual dividend for the FYE2025 is 60 yen* (year end dividend of 30 yen) and the dividend forecast for the next fiscal year is 65 yen.
we plan to implement a share buyback of 120 billion yen.

We will continue to consider stable and continuous shareholder returns over the medium to long term.

※Before Stock Split Conversion : Annual dividend of 180 yen (year end dividend of 90 yen)

Highlights of Financial Performance

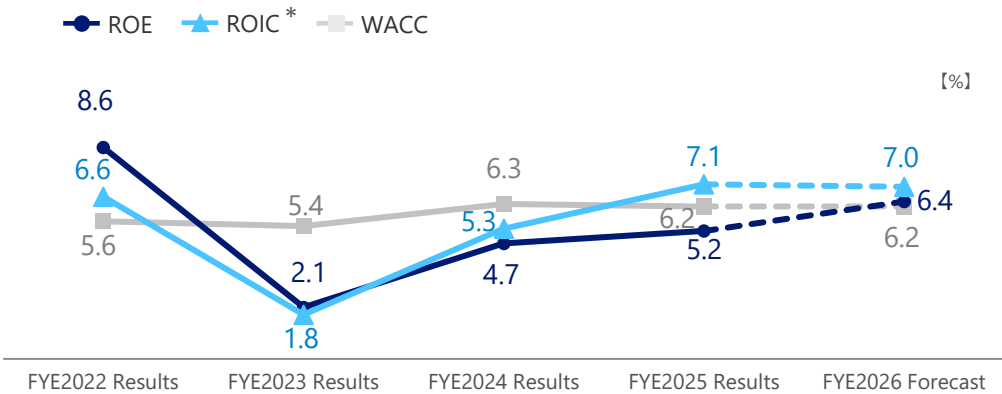

Revenue／Operating Profit／Operating Profit Ratio

R&D Expenditure ／Ratio of R&D Expenditure to Revenue

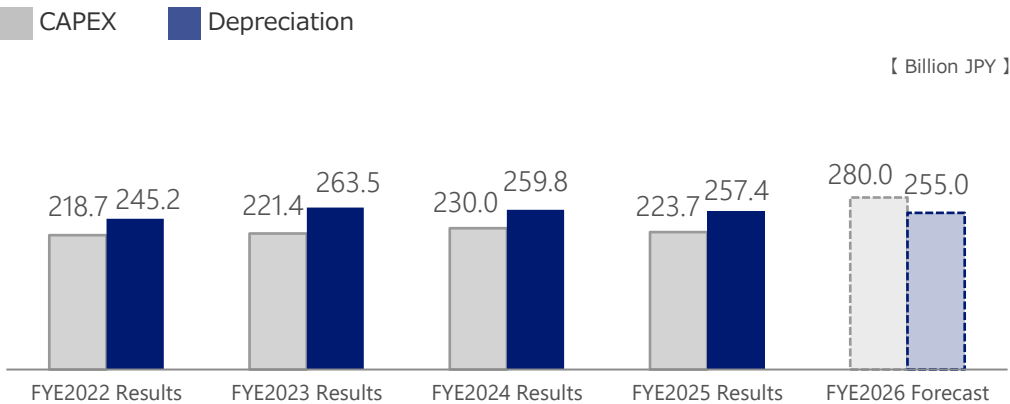

Return on Equity／Return on Invested Capital／ Weighted Average Cost of Capital

*Operating Profit after Income Tax / (Inventories + Tangible Fixed Assets + Intangible Assets)

CAPEX / Depreciation

Capital Policy

Our core capital policy is to maximize corporate value by maintaining the balance between “financial safety” and “capital efficiency”. We regard capitalization ratio*¹ as an important financial index to assess our capital structure and believe the ratio from 25% to 30% represents optimal balance.

In response to the recent increase in financial safety, we have decided to implement the largest stock repurchases (120 billion yen to the maximum) and determined the largest dividend per share (DPS) in history to improve capital efficiency. We will continue considering flexible stock repurchases, taking into consideration the optimal capital level.

*1 : Capitalization Ratio (Cap Ratio) = Interest-bearing Debt/(Interest-bearing Debt + Equity)

*2 : Interest-bearing Debt = Bonds and Loans Payable + Lease Liabilities

*3 : 50% of the Balance of Hybrid Procurement (252.5 Billion JPY) is Considered as Capital on the Rating

Return to Shareholders

Based on stable and continuous shareholder dividends over the medium to long term.

We will continue to strengthen shareholder returns, including flexible share repurchases, to further enhance corporate value and capital efficiency.

The annual dividend per share and total return ratio for FYE2025 are expected to be the highest.

◆ Dividends

The annual dividend for FYE2025 is 60 yen (interim dividend of 30 yen /year end dividend of 30 yen)
The annual dividend forecast for FYE2026 is 65 yen,increase of 5 yen from the previous fiscal year.
(interim dividend of 30 yen /year end dividend of 35 yen)

◆ Repurchase of treasury shares

We repurchased of treasury shares 83.9 billion yen in FYE2025.
We will repurchase of treasury shares 120.0 billion yen in FYE 2026.
